- 7) Please feel free to **call Simon at 9689 0510** if you need further enquiry.

### Our Class Activities:

#### 1) Topical and Content Enrichment

Students will be introduced to various GP issues, like Education, Social Media and Science & Technology. The classes will cover key terms, issues, and discussion of topics that will help students to understand the complexities and significance of GP issues. By doing so, students can derive the underlying implications from comprehension passages and expand on their essay discussion effectively.

#### 2) Essay Writing Skills

Application techniques for GP essays are essential for those who strive to attain grade A in A Level General Paper. The revision programme will facilitate the acquisition of essay writing skills, like question analysis, outline setting, paragraph development, and point elaboration. Also, students will learn to write different types of essays, like the 'Do you agree' (DYA) and 'To what extent' questions. As such, students will become versatile in their writing abilities and develop the confidence to excel at the examinations.

### 3) Comprehension Answering Techniques

The development of comprehension answering skills is achieved through the use of practice questions during the GP tuition revision programmes. Students will learn how to read the given passages and annotate important parts of the text. Under the guidance of JC GP tutor Simon Ng, students are encouraged to engage in activate discussion to understand the intentions of the writers, such as why they use certain phrase and italics. Hence, students will develop the proficiency and flexibility to tackle different types of short-answer comprehension questions.

### 4) Summary Writing and Application Questions (AQ) Practices

Although summary and AQs are part of the GP comprehension question component, the revision programme will also feature practice sessions for students to improve specific skillsets that are related to these two sections. Students will develop writing techniques, like word substitution, extraction of information and arrangement of ideas. Then, within the given timeframe, students will write out their answers to simulate examination conditions. Therefore, a realistic frame of practice will prepare students adequately for the GP examinations.

### 5) Class Practices and Question Discussion

Generalpaper.com.sg advocates the undertaking of regular and extensive class practices as students can identify their knowledge gaps and limitations in answering questions. The GP Tuition revision programme will feature class practices for GP essays and comprehensions to help students to build the familiarity of questions. Furthermore, JC GP tutor Simon Ng will review the answers of students and provide feedback on the areas of improvement. Post-practice discussion will be conducted to encourage students to reflect and check their answers more thoroughly, so as to minimize errors.
